"SORRY ABOUT THAT!"....

WOULD YOU BELIEVE..."INDEX"

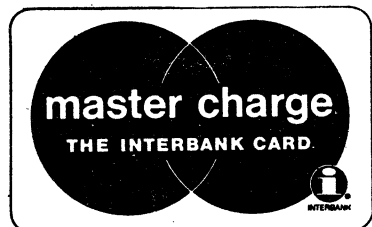

IN HIS USUAL STATE OF TOTAL CONFUSION, THE DUMB ARTIST WHO PUT THIS TOGETHER REMEMBERED EVERYTHING BUT THE PAGE NUMBERS. THEREFORE, IN ORDER TO USE OUR HANDY DANDY INDEX, YOU HAVE THREE CHOICES: (1) GO THROUGH THE CATALOG, NUMBERING THE PAGES AS YOU GO; THEN PUT THOSE NUMBERS NEXT TO THE CORRESPONDING MANUFACTURERS NAME ON THIS PAGE. (2) FAKE IT. (3) WAIT TILL NEXT YEAR AND SEE IF OLD EL STUPID CAN GET IT RIGHT FOR A CHANGE. AGAIN, WE APOLOGIZE FOR THE CONFUSION.

FUTABA

Designed by FUTABA, the world leader in R/C Radios expressly for R/C Cars.

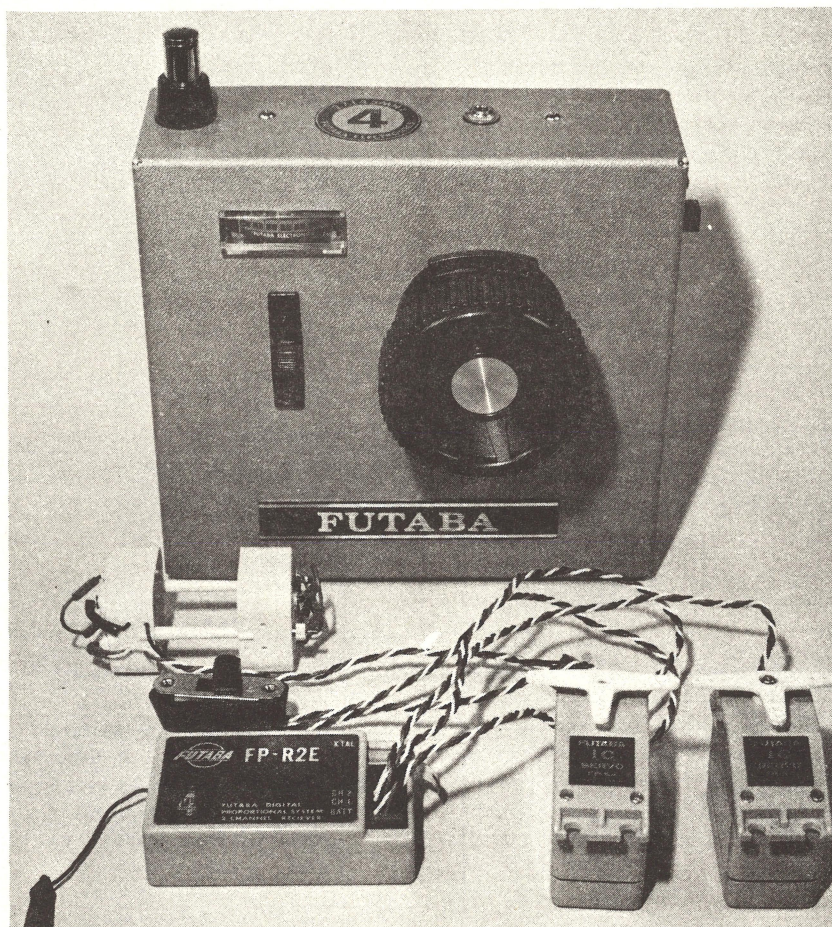

Steering wheel makes it much easier to drive than with "sticks".

Throttle control on the side for easy finger control.

Transmitter antenna retracts into case.

Interchangeable crystals

Output meter to indicate battery state.

FUTABA is the most popular radio used by R/C car racers everywhere.

Special Heavy Duty Servos with extra thick gears made to absorb the punishment given in R/C Cars.

Thoroughly tested.

Strong motor for high torque and speed.

The most reliable servos made.

CUSTOM KITS, PARTS, AND ACCESSORIES
FOR THE 1/12TH SCALE CAR ENTHUSIAST.

PENN RACING SPECIALTIES

-
- | | |
|-------------------|--|
| A-1200
\$29.95 | Our quality basic chassis kit features high strength aluminum suspension and pans. It's pre-drilled for most P.R.S. optional accessories, plus the JoMac receiver brick, R.V. engine, and bumper. Oilite bushings and drill rod axle are included. The front suspension will allow the use of JoMac's #1050 wheels only with their #1021 spindles for a track of 6-5/8" width. |
|-------------------|--|
-
- | | |
|-------------------|--|
| A-1201
\$29.95 | P.R.S. is now producing this kit for the many racers who wish to use the new KRD 11H336 wider front tires and wheels on our chassis kit and keep the front track within the limits of the ROAR 1/12th rules. We made the front suspension kingpin centers a little narrower to give a 6-5/8" track with the 11H336 wheels. |
|-------------------|--|
-
- | | |
|-------------------|---|
| HA-1200
\$4.95 | This hex adapter axle allows the use of our hex wide wheels or the JoMac #1040, #1060, tires and wheels for a rear track of 6-3/4". The stock hex hole driven gears can be used without modification. 3/16" bushings or ball bearings can be used on the car with the HA-1200. Rear track is legal only when using the HWW-1200 or JoMac #1040, #1060 rear tires and wheels with this axle. |
|-------------------|---|
-
- | | |
|-------------------|--|
| HA-1201
\$4.95 | This hex adapter axle has all the features of the HA-1200, but is modified to take the KRD 11H326 rear tires and wheels and stay within the 6-3/4" legal rear track limits of the rules. |
|-------------------|--|
-
- | | |
|--------------------|---|
| JAB-1200
\$1.25 | These are special size flanged axle bushings machined to fit the holes of the JoMac #710 chassis. They allow the use of the stock JoMac wheels and HA-1200 axle, or the KRD 11H326 wheels and the HA-1201 on the chassis. |
|--------------------|---|
-
- | | |
|---------------------|--|
| HWW-1200
\$10.95 | These wheels are the JoMac #1040 wheels with rim extensions and glued and trued tires. You must use the HA-1200 axle with them and will fit the A-1200 or JoMac chassis. They are 1-1/2" wide. |
|---------------------|--|
-
- | | |
|---------------------|---|
| JTW-1200
\$13.95 | These are the JoMac #1040 wheels with rim extensions and set screws adapters for 3/16" rod axles. Allen wrench and set screws included. Tires are glued and trued to 1-1/2" width and 2-5/16" in dia. |
|---------------------|---|
-
- | | |
|--------------------|---|
| QCG-1200
\$2.50 | Our quick change gear is a specially modified JoMac drive gear with our hex set screw adapter for 3/16" axles. It allows the removal and replacement of worn out gears blanks, and includes a spacer for the opposite wheel. Recommended for use with A-1200 kit with JTW-1200 tires and wheels and JoMac #1030 front wheels. |
|--------------------|---|
-
- | | |
|-------------------|---|
| GB-1200
\$1.50 | The GB-1200 is the replacement gear blank for the QCG-1200 adapter and come in 54, 55, 56, 58 teeth. State number of teeth desired when ordering. |
|-------------------|---|
-
- | | |
|--------------------|---|
| BAC-1200
\$3.95 | We make these for the racer who wants ball bearings on his A-1200 or A-1201 kit. The axle carriers are bored for 1/2" O.D. X 3/16" I.D. flanged bearings. (Bearings not included, price on request) |
|--------------------|---|
-

P.O. BOX 80653, ATLANTA, GEORGIA 30341 PHONE (404) 457-2547

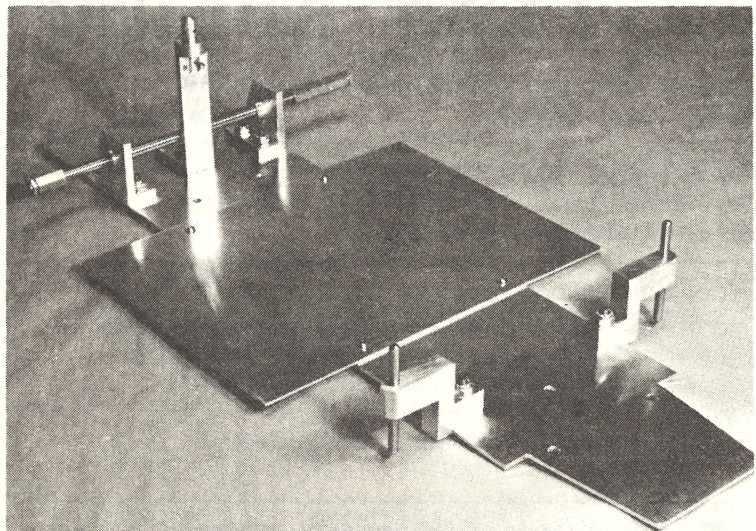

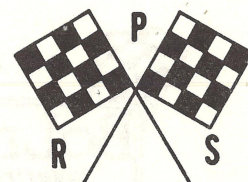

PENN RACING

RD-1200 \$2.95	These are replacement rear donuts for our JTW-1200, HWW-1200 rear wheels, and the KRD 11H326 rear wheels.
MM-1200 \$4.95	Our motor mount is designed specially for our A-1200 and A-1201 kits. Fits the Cox TD, Medallion 049 and 051 engines. Chassis and motor mount bolts included with mount.
TBM-1200 \$3.95	This throttle arm body mount combo is for racers using the Cox reed valve engine on our A-1200 and A-1201 kits, with a JoMac receiver brick. It gives the same throttle arm action and body mount convenience that the one on the JoMac #710 chassis did.
FBM-1200 \$1.95	Our aluminum front body mount for Can Am bodies, includes a mounting bolt and body clip.
FBM-1200C \$1.95	This is a longer body mount for coupe bodies (Pantera, Camero, Firebird, Charger, Etc). Mounting bolt and body clip included.
WBM-1200 \$3.50	These are rear body and wing mount posts for CanAm bodies. They fit over the rear axle carriers of our kits. Remove one of the nuts on each side and tighten them to the axle carrier. Can be used on JoMac chassis by drilling 2-1/8" holes.
REB-1200 \$2.95	This is a special aluminum angle brace to support the tank of reed valve engines when mounted to our kits. Holes for tank screws and choking air intake are drilled in mount. Both P.R.S. kits are drilled for chassis bolt and recoil starter, spaced for a 10 to 58 or 12 to 56 gear ratio.
SSA-1200 \$5.95	These are hex set screw adapters for the KRD 11H326 rear tires and wheels. They press fit in hex holes of the wheels, and require no adhesive to hold them. Recommended for A-1201 kit, with QCG-1200 gear. Can be used on JoMac chassis with DRA-1201, JAB-1200 axle and bushings with QCG-1200 gear.
DRA-1200 \$1.50	Replacement drill rod axle for A-1200 kit with JTW-1200 wheels.
DRA-1201 \$1.50	Replacement drill rod axle for A-1201 kit with KRD 11H326 rear wheels with SSA-1201 set screw wheel adapters.
TR-1200-1 \$1.95	Our tie rod kit has been redesigned to fit both A-1200 and A-1201 front suspension, using JoMac #1021 spindles.
AJS-1200-1 \$4.95 PR	These are a pair of JoMac #1021 spindles modified with bolts and nuts to take up slop and wear in the split king pin holes for greatly improved handling and stability of front wheels.
TC-4951 \$15.95	Our throttle control for Cox TD, Medallion and R.V. engines. (See catalog for photo and description of TC-4951)
EM-1200 \$3.95	Our electric motor mount fits all the popular motors, Astro Flite, etc. Adapts to A-1200 and A-1201 kits. Chassis mounting bolts are included with the mount.

PENN RACING SPECIALTIES

THE A-1200 R.C. CAR KIT

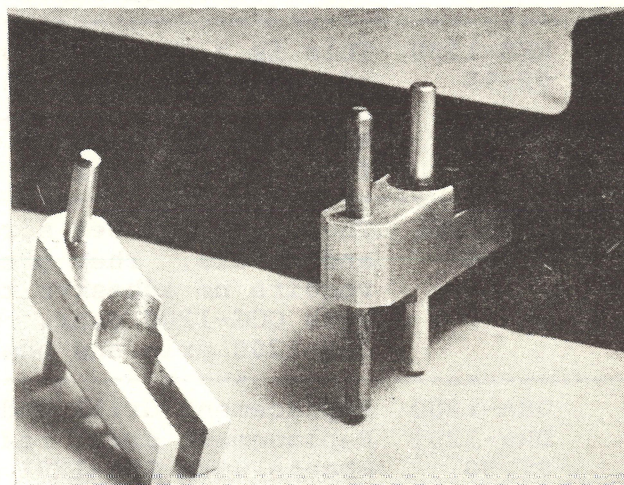

(Body mount throttle arm combo and hex adapter axle shown above are not included with the basic A-1200 car kit.)

FEATURES

- 6061-T6 high strength aluminum alloy pans and suspension.
- Quality allen head socket bolts and aircraft nuts.
- Adapts to fuel or electric power.
- Main pan drilled for Jerobee radio and reed valve engine installation.
- Front of main pan tapered and drilled for Jomac bumper.
- Long wearing brass rear axle bushings or ball bearings as an optional extra.
- Complete list of optional custom accessories.

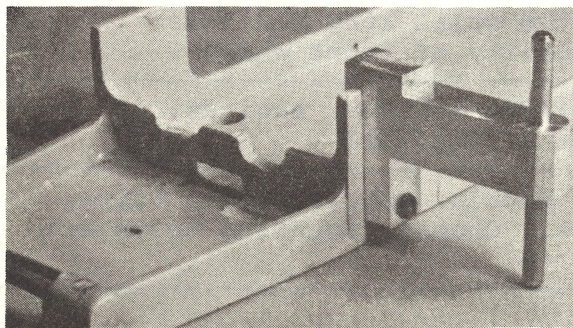

CAT.NO.-WT-625 Price \$7.95

The WT-625 Wide Track Kit is an inexpensive way for the Jerobee car owner to get the front track out to a full 6-5/8". Your front wheels are no longer buried deep inside your wheel wells, giving you SUPER handling and appearance. The stock Jomac #1030 and #1050 wheels and tires are used with this kit, along with the #1021 Jomac spindles.

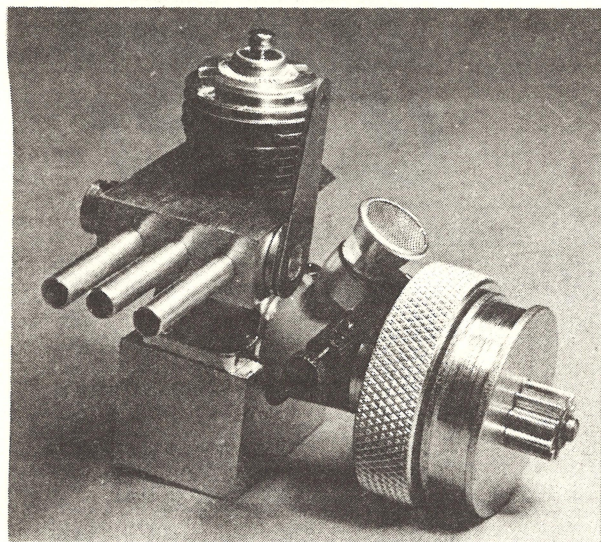

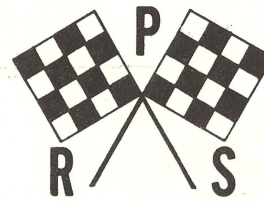

CAT.NO.-WTR-625 Price \$8.95

The WTR-625 Wide Track Repair Kit was developed to salvage the Jerobee chassis with broken front suspension members. The racer saves the cost of a new chassis and gets the added advantage of a full 6-5/8" front track in the bargain. It is installed with simple hand tools by cutting off the old front suspension parts, drilling two holes, and installing two bolts. The Wide Track Blocks give a SUPER strong and handling car after the installation.

P.O. BOX 80653
ATLANTA, GA. 30341
[404] 457-2547

CAT.NO.-TC-4951 Price \$15.95

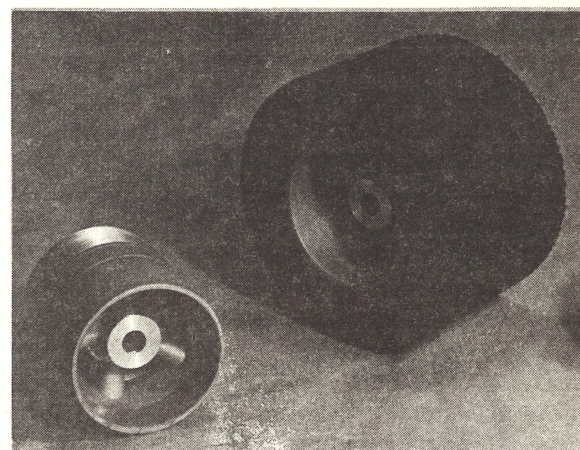

The TC-4951 throttle control is a must for the serious 1/12th scale racer. It acts as a heat sink and exhaust manifold, to help cool the engine and route the goop out the rear of the car. From idle to peak RPM the response is instantaneous. Yet mid-range control is smooth and positive. You have to own one to believe it. The TC-4951 fits all Cox TD, Medallion, and reed valve 049 and 051 engines, without any modifications to them. Complete instructions come with each TC-4951.

CAT.NO.-MM-4951 Price \$4.95

The MM-4951 is a motor mount for the Cox TD and Medallion engines. It is machined to precise tolerance from high strength 6061-T6 aluminum alloy. The advantages are stronger threads, which are less apt to strip if over tightened. Quality Allen head socket bolts are included with each mount. (Jomac #680 flywheel and #1131 10 tooth gear assembly shown with engine and mount.)

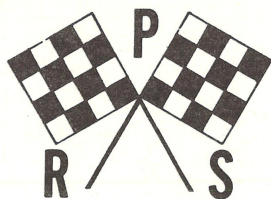

CAT.NO.-JSW-1200 \$9.95

The JSW-1200 wheels are a combination of the #1040 Jomac plastic rear wheels attached to two special set screw adapters, bored for a 3/16" axle. They are machined to a precision tolerance for balance and concentricity. You are now able to match them with the Jomac #1030 front wheels for concourse winning appearance. Just glue and true your favorite tires to the rims and your all set. Aluminum bushings are pressed into the hex holes of the plastic hubs for the axle to aid in strenghtening and alining the wheel assembly. Cupped head 6-32 Allen set screws are used for maximum grip to the axle.

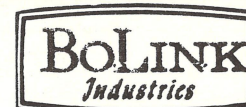

CAT.NO.-JTW-1200 \$13.95

These are the JSW-1200 wheels listed above, with KRD rear tires glued and precision ground for maximum balance and concentricity. They are a full 1-1/2" wide and 2-5/16" in diameter for best traction and maximum wear. Keep an extra set of the JTW-1200's in your pit box. Once you use them, you will never want to be without them,

THIS CATALOG HIGHLIGHTS MOST, BUT NOT ALL OF BOLINK'S PRODUCTS. PLEASE SEE THE PRICE SHEET/ ORDER BLANK FOR A COMPLETE LISTING. THIS IS THE SECOND PRINTING OF THIS CATALOG, AND WE'VE ADDED SOME BETTER PHOTOGRAPHS OF SOME OF THE ITEMS. ALSO, WE FINALLY GOT AROUND TO TAKING A NEWER PICTURE OF OUR "BOLECTRIC" ELECTRIC CAR, AND ADDED THE NEW LOGO. BY THE TIME THIS CATALOG REACHES YOU, WE WILL HAVE NEW MYLAR "BOLECTRIC" DECALS AS WELL AS NUMBER CIRCLES WITH THE NUMBERS ALREADY PRINTED ON THEM. JUST PEEL 'EM OFF & STICK 'EM ON...NO MORE MESSY WATER!

BOLINK IS JUSTLY PROUD OF OUR PRODUCTS AND OUR GROWTH. THE QUALITY OF WORKMANSHIP AND EQUIPMENT.. COUPLED WITH THE INTEGRITY OF OUR CO-WORKERS MEANS YOU, OUR CUSTOMERS, RECEIVE THE VERY FINEST R/C PRODUCTS AVAILABLE ON THE MARKET TODAY. IN JUST A FEW SHORT YEARS OUR CUSTOMERS HAVE COME TO REALIZE THAT "TO OWN A BOLINK PRODUCT IS TO OWN THE VERY BEST!" TO YOU WE HEARTILY SAY "THANK YOU!"

SHOW CLASS AND YOUR GOOD TASTE. BE THE FIRST IN YOUR AREA TO WEAR A "BOLINK" RACING PATCH TO YOUR NEXT R.O.A.R.RACE.
